# **SCOTTSDALE NEIGHBORHOOD COLLEGE**

In Scottsdale, the success of our community is defined by how we as individuals address and respond to neighborhood issues and challenges. Believing that one person can make a difference, the City of Scottsdale developed the Scottsdale Neighborhood College program to provide residents with the information, resources and tools needed to become effective neighborhood leaders. Our professional, volunteer instructors invite you to participate in the following workshop:

## **Neighborhood Enhancement Partnership (NEP) Program Orientation Workshop**

The Neighborhood Enhancement Partnership (NEP) program helps to prevent the decline of mature neighborhoods by encouraging property owners to enhance their own neighborhoods. NEP provides on-going funding opportunities that can assist in neighborhood-based improvement projects. Improvements/enhancements must benefit the entire neighborhood (applications for individual homes will not be accepted).

The program seeks to preserve and promote all Scottsdale neighborhoods by ensuring that mature neighborhoods are equipped to address emerging or future neighborhood needs that do not exist in newly established neighborhoods. By encouraging neighborhood participation and investment, it is the program's objective to address individual neighborhood needs before they become community challenges.
